Quantity discounts available, contact us for details.

Species				
Species	Pod	Pollen	Comments	price
<i>Paph mastersianum</i>		self	The plant used to make this population was an extra select example of this species from Taiwan. It was purchased by the owner of the Orchid Zone. It was one of the finest examples of this species he had seen so he promptly selfed it. The color was amazing. We purchased the plant with the pod on it when he was closing OZ. These should be fantastic. Only a few left.	\$175.00
<i>Paph druryi</i>		Bing'	This species is relatively hard to come by these days. These parents are proven breeders that have produced excellent results in a previous cross. Plants can be slow to establish but grow well once they do. Limited availability.	\$175.00
<i>Paph tonsum (half album)</i>		album 'Verdejo'	This cross was made with a very large and full 'type' parent that is 50% album. Crossed to a large album flower we should get 50% album flowers in the progeny. The album form has been fairly hard to find and has commanded high prices, as many have lacked vigor. This cross will make this form more readily available and the seedlings are growing very well in flask.	\$150.00

Paph Paradise Summer 2019 Flask List

<p><i>Paph fairrieanum album</i></p>	 <p>Bacchus'</p>	 <p>Dijon' AM/AOS</p>	<p>Bacchus' and 'Dijon' are siblings from a cross we made a few years ago. A high percentage of this cross was very vigorous, these were probably the most vigorous. They both bloomed about 16 months out of flask. We expect both high vigor and high quality flowers from this sibling cross. Highly recommended!</p>	<p style="text-align: right;">\$200.00</p>
<p><i>Paph rothschildianum</i></p>	 <p>Graciano' FCC/AOS</p>	 <p>Tempranillo' AM/AOS</p>	<p>We had the good fortune of close access to the Orchid Zone over the last few years. We were able to acquire many of the finest rothschildianum clones and add them to our stud bench. 'Graciano' is simply stunning. Large, graceful and intensely colored. Perhaps the finest FCC roth around. 'Tempranillo' received an 88 point AM/AOS when it was presented with 7 flowers on one spike! This cross will set the new standard for this species. We expect many award winners here. Don't miss out on this opportunity to have some of the best roths in the world.</p>	<p style="text-align: right;">\$400.00</p>
<p><i>Paph henryanum</i></p>	 <p>Richard'</p>	 <p>Margeaux'</p>	<p>The pod parent is a huge flower for this species, and it stays quite flat which is unusual for large flowers. 'Margeaux' is the best seedling to bloom from our cross made a few years ago. The flower is amazing and drew much attention when we posted its photo online. These should be outstanding...some of the best we have ever produced.</p>	<p style="text-align: right;">\$175.00</p>

Hybrids

Hybrid	Pod	Pollen	Comments	price
Paph	 <p data-bbox="392 527 749 615">Mem. Sabrina Mark 'Rich Canvas'</p>	 <p data-bbox="758 576 1148 615">Eyecatcher 'Tokyo'</p>	<p data-bbox="1157 305 1711 612">Mem. Sabrina Mark 'Rich Canvas' is from the breeding bench at the Orchid Zone. Terry selected it for its size, flat form and very glossy texture. Mem. Sabrina Mark is a proven parent that has produced some outstanding hybrids. Crossing this to the German bred Eyecatcher is an obvious choice. This cross should produce huge flowers with potential for bold spots. One of the best spotted complex we have ever produced!</p>	<p data-bbox="1719 581 1925 612">\$ 250.00</p>
Paph	 <p data-bbox="392 922 749 993">Chocolate Eagle 'Burgundy' HCC/AOS</p>	 <p data-bbox="758 922 1148 993">Jenna Marie 'Sparkle' AM/AOS</p>	<p data-bbox="1157 748 1711 987">Both of these parents are very vigorous. Chocolate Eagle has proven to be a wonderful parent so far, producing offspring with very wide petals and great color. Jenna Marie is an excellent parent with a great track record. These should be fantastic spotted reds with tall stems. Very high potential here.</p>	<p data-bbox="1719 959 1925 990">\$ 250.00</p>
Paph	 <p data-bbox="392 1300 749 1378">(Emerald Lake x Pacific Shamrock)</p>	 <p data-bbox="758 1300 1148 1378">Pacific Shamrock 'Minou'</p>	<p data-bbox="1157 1143 1711 1382">(Emerald Lake x Pacific Shamrock) has a very flat flower with broad petals. Here we have put another shot of Pacific Shamrock onto this hybrid. The Pacific Shamrock we used has intense green color, great round form and heavy texture. It is also very flat. These should be outstanding greens with great form and color.</p>	<p data-bbox="1719 1349 1925 1380">\$200.00</p>

Paph Paradise Summer 2019 Flask List

Paph			<p>Vogue Wonder has large, flat flowers with great color and wide petals on a tall stem. Hawaiian Volcano is a new line of breeding with unique color. This is an interesting cross with potential for new and exciting color patterns. It is hard to predict what we might see but we are hoping for big spots on the petals and lots of green. We can't wait to start blooming these! Only one left!</p>	\$150.00
Paph			<p>Paph Stone Crazy 'Pinot Gris' really impressed the judges. The flower had just opened the day of judging, and they said to bring it back someday for an FCC. Paph fairrieanum 'Red Wonder' was part of the AQ/AOS for Hillsview. Tremendous red color in the dorsal. This hybrid should produce flowers that range from sunset tones through red. Complex hybrids with fairrieanum always produce wonderful flowers. Highly recommended!</p>	\$200.00
Paph			<p>Both parents have huge flowers, and are exceptionally flat. There should be some stunning flowers from this cross! Very limited.</p>	\$250.00

Paph Paradise Summer 2019 Flask List

<p>Paph</p>			<p>Our very best niveum should give this hybrid great form. Plants are small due to the niveum influence but they have good roots. We recently deflasked some and they are establishing quickly.</p>	<p style="text-align: right;">\$150.00</p>
	<p>niveum 'Taiwan'</p>	<p>Jennifer Reinoso 'Zinfandel' HCC/AOS</p>		
<p>Paph</p>			<p>A sibling cross made at the Orchid Zone during its last year in operation. When the doors closed we were fortunate enough to get the pod parent with the pod still on it. We are expecting solid greens with good size and form on tall stems. Some exceptional line-bred Orchid Zone material...one last time!</p>	<p style="text-align: right;">\$250.00</p>
	<p>(Emerald Lake x Pacific Shamrock) 'OZ Select'</p>	<p>(Emerald Lake x Pacific Shamrock) 'Round'</p>
